There is a video projector in the room, but it only connects to EPA laptops. If you could bring your presentation on a thumb drive, we could plug it into my laptop and show it that way.

Yes! It looks like you go 2 blocks east and 2 blocks north from your hotel and you will get to us. We are on the corner of Broadway and Duane Street.

That's what I just heard as well. I think that is a good approach, although either way would work. As I mentioned, one of my goals is to establish working relationships and a separate meeting probably allows us more direct conversation.

I have some basic slides that I would like to show in the group presentation. Is there access to a projector?

Staying at the Smyth hotel which I believe is fairly close to your offices?
